It's Alive

Belgian Wild Ale

Mikkeller (Denmark)

8%

A beer developed as a tribute to trappist beers, It's Alive is as an easy-to-drink hoppy beer. Funky with sweet notes of apple and caramel, the palate has notes of berries, bananas, maybe a little bubble gum. The beer is produced using Brettanomyces culture, so expect a different taste between bottles as the beer continues to develop as it stays capped true to its name.
