## Master's Dream

The Premium Malt's MASTER'S DREAM is brewed using "Ensemble Mashing Technology". This is a combination of unique production method of "Triple Decoction: to boil the wort at once to creates rich, aromatic wort", using Diamond Malt, and using new equipment "Copper Circulation Kettle".

## The Premium Malt's

half pint 8.00 / full pint 12.00 / tower 55.00

The Premium Malt's is made with carefully selected hops and malts, using a method called "double decoction," where mash is heated twice to ensure the malts' rich umami and flavor. Hops are typically boiled just once, but for The Premium Malt's, aroma and fine aroma hops are added individually to create its unique aroma. We call this technique "aroma rich hopping."

Brings a fruity taste and refreshing fragrance

## The Premium Malt's Kaoru

The Premium Malt's Kaoru is an ale-style premium beer. This has been manufactured successfully by using the carefully selected materials of The Premium Malt's, and by adding top-fermenting yeast which was fermented at a higher temperature than lager beer. This enables The Premium Malt's Kaoru to create the beer more fresh in taste and fragrance.

Mellow and aromatic flavor
