

A hand is shown pouring beer from a dark glass bottle into a tall, clear glass. The beer is dark with a thick, white head of foam. The glass sits on a light-colored wooden surface. The background is dark, making the beer and the hand stand out.

# THE SOCIAL ALLEY

## OUR STORY

We are a humble restaurant located in an alley along Holland Village, Singapore. The Social Alley was born during the COVID-19 pandemic, whereby for a period of time, all citizens had to be quarantined and social distancing became a norm. With minimal social interaction, this circumstance has forced us to adapt to changes within weeks and has inevitably transformed relationships between millions of people.

Harnessing the lessons from a single novel virus, we come to realise that all of us are, ultimately, human beings fighting a common enemy.

## OUR GOAL

The Social Alley aims to bring people regardless of race, ethnicity, material wealth or social class together. Just like how the coronavirus doesn't discriminate, we don't either.

We hope to connect people from all walks of life—through messages that everyone and anyone can craft and receive, our patrons will be able to meet strangers, talk to new people, build connections and establish relationships. You might meet a stranger who could become your best friend or your soulmate!

## OUR MENU

It's bold, it's unconventional and unlike anything you can find in a typical restaurant. Our menu is aligned with our goal of bringing people from all walks of life together—our carefully curated menu sees a myriad of fusion flavours; It draws inspiration from various countries all over the world and the dishes are influenced by the people we have met, places we have travelled to and foods we have tried and loved.

Here, you'll find flavours inspired by Chinese, Spanish Singaporean, Italian and more cuisines in our broad menu that will bring your tastebuds on a gastronomic journey.

## OUR VISION, MISSION & VALUES

Here at The Social Alley, we stand by being socially accountable and aim to give back to society as much as we can. 10% of our profits are channelled towards the Save the Children Fund, whereby the proceeds are used to improve the lives of children improving education, healthcare, and economic opportunities and more.

On top of that, we pride ourselves on our sustainable practices. This initiative brings us one step closer to food sustainability, food security as well as a stronger battle against climate change.
