

BAKALAKI
Greek Taverna

Greece is one of the oldest wine
- producing regions in the world.
The earliest evidence of Greek
wine has been dated to 6500
years ago, where wine was produced
on a household or communal
basis. In ancient times, as trade
in wine became extensive, it was
transported from end to end of
the Mediterranean. The spread
of Greek civilization and their
worship of Dionysus, the god of
wine, spread Dionysian cults
throughout the Mediterranean as
during the period of 1600 BC to
the year 1.

"Nothing more excellent or rational
than wine was ever granted
by the gods to man."
- Plato

greek herbal drinks

In Ancient Greece, herbs were used both in food and for medicine. In fact, the whole system of medicine that the Ancient Greek physicians practiced is based around the variety of herbs and spices that are found growing in the Greek countryside. The Ancient Greek physician, Hippocrates, is credited with saying, "Let food be your medicine, and medicine be your food." Herbs and spices did make it into the cuisine both as a cure and to enhance the flavor of the food.
