

# OUR STORY

## More Than Just Games:

Penetrating the café scene back in 2003, Settlers Café introduced the concept of Board Games dining to the industry, successfully paving the way for many others to follow suit. We believe we can provide a platform that allows more than just bonding over food, but for people to connect, learn and even teach altogether. Bragging at over 600 different game titles to offer, we believe that there's always a game for every social group or individual for any occasion.

If proven untrue, it is our mission to find one.

Since we started this journey decades ago, we have witnessed revolutionary advancement in technology and the generations evolving along with digitalisation. Despite these changes, we choose to stay true to what matters.

**"We see the world not as it is, but as we are."**

Here at Settlers, we choose to be more than just board games. We open our doors daily in hopes to touch the lives of people, one board game at a time. Join us in the journey of rediscovering the world by reconnecting with our truest, best self.
