### GIN & TONIC FLIGHTS

**Spoilt for choice?** Experience our curated gin flights of what we think is drinking best this month and try three different gins matched with tonics and garnishes to bring out the flavours of the botanicals 30

Includes:

**Four Pillars** Their signature gin, created to represent their idea of modern Australia: classic, clean, spiced to perfection and lifted with great citrus

**Four Pillars Negroni Spiced** Highly aromatic, rich and spicy gin with great power and intensity, containing botanicals such as Tasmanian pepper berry leaf and cinnamon to name just a few

**Four Pillars Shiraz** Aromatically it shows fresh pine needles, citrus and spice, and distinct peppery, dense raspberry notes. The palate is lovely and sweet with a long juniper and spice character on the finish

**London Dry Gin**, despite its name, can be produced anywhere in the world and is what most people think of when they think of gin. Dry gin, means there is nothing artificial added and no added sugar. All flavours are natural from the botanicals. Juniper is the most dominant flavour within the gin, however, most are also steeped with fresh or dried citrus peels before distillation which can give it a bright, citrus flavour. Try one of the below in a classic martini with a simple twist of lemon.

**Beefeater UK 9**

**Beefeater 24 UK 16**

**Bombay Sapphire UK 12**

**Sipsmith London Dry UK 17**

**Tanqueray Dry UK 12**

**Opihr Oriental Spiced UK 16**

**Colombo No.7 Sri Lanka 16**

**Old Tom Gins** tend to deliver a generally sweeter flavour profile than London dry, which is usually thanks to the greater use of liquorice within its botanicals. Old Tom was the gin used in classic gin cocktails such as the Martinez and Tom Collings during the first cocktail era of the 1880's.

**Hayman's Old Tom UK 12**

**Sloe Gin** is made by infusing quality gin with ripe sloe drupes, which are a small fruit relative of the plum and adding a little sugar to extract the juice from the fruit. The result is a liqueur that's tart, but with a delicious richness and depth of flavour.

**Plymouth Sloe Gin UK 14**

**Monkey 47 Sloe GER 18**

**New Western style or Contemporary style gins** are gins which have a predominant flavour of anything other than Juniper. Although Juniper is always present and legally required to be called a gin, the gin overall may have a character which emphasizes other botanicals. The most common one you might be familiar with is Hendrick's, flavoured with cucumber and rose.
