# HISTORY OF PIZZA

Almost 3000 years of food evolution has taken place for the pizza pie to reach its current delicious state today. In 1889, an Italian tavern owner named Don Raffaele Esposito developed a pizza featuring tomatoes, mozzarella cheese and basil - ingredients bearing the colours of the Italian flag. He named it the Margherita Pizza, after the Queen of Italy Margherita Teresa Giovanni.

Thus, the modern-day tomato and cheese pizza was born.
