HANDCRAFT

Culinary handcraft at the "Mühle Tiefenbrunnen" - since 1890

The "Mühle Tiefenbrunnen" has a long tradition in culinary handcraft. It started with the Brewery Tiefenbrunnen, which brewed beer for the city during the "Belle Epoque". Afterwards the Wehrli mill carried on grounding grain into flour for almost 70 years.

This culinary tradition continues in our restaurant "Blaue Ente". We make sure that we only use suppliers we know personally and who excel themselves in working hard and with great dedication and toil.
