

Thank you for your generosity in supporting The Food Bank x Iggy's Takeout from 10 Apr to 2 May. We are very touched by your kind words and encouragement. Our team sends you their heartfelt gratitude to you for responding to our call. We are honoured that you have allowed us to serve you at home.

As the Circuit Breaker period has been extended for another month, we take this opportunity to extend our takeout in support of HealthServe from 3-31 May every Friday, Saturday and Sunday. For every takeout, we will pledge 15% of your food bill to HealthServe.

Healthserve is a non-profit IPC registered charity that believes in a society every migrant worker lives a life of dignity. Founded in 2006, it is dedicated to provide healing and hope to migrant workers. Healthserve through their medical and dental clinics, casework, social assistance, mental health, advocacy and outreach programmes, work to address the complex and intertwined needs of migrant workers in Singapore.

In response to Covid-19 and the mounting anxiety, fear and boredom amongst the workers in isolation, HealthServe is harnessing digital technology across multiple channels to complement its on-ground outreach efforts to support the physical, mental and emotional health of migrant workers. These include tele-medical consultations, a virtual counselling clinic, a 24-hour interactive helpline and a multilingual website with information and links to videos and other resources covering Covid-19 related information and promoting mental well-being.

Together, we can be a more gracious and inclusive society. Please help us reach out to the migrant workers during these very trying times.

We hope we will get to serve you at home by way of a takeout and look forward to hearing from you soon. You may also wish to make a direct donation to HealthServe at [www.healthserve.org.sg/donate](http://www.healthserve.org.sg/donate). Please help us support this important cause.
