TEA

-£5.00-

Extract Tea is ethically sourced from the world's finest tea gardens. Plucked and processed by hand, then skilfully blended and packed as loose leaf or biodegradable pyramid bags. Even better, cup of Extract Tea supports our GroundsUp charity collective, helping community projects here in the UK.

MINT

In Greek mythology, Minthe was a nymph, turned into a plant by Persephone, Queen of the Underworld. Mint has been used in medicine for more than 2000 years and is said to aid digestion and anxiety.

The heat of peppermint is beautifully balanced with spearmint sweetness and the sparkling citrus notes of lemon balm. It's naturally caffeine-free, a refreshing and calming cup for day or night.

GREEN

Jade Tips Green Tea is grown in yellow-black sandy loam soils by smallholders in the growing tea district of Xinyang. Young, tender leaves and buds are plucked in early Spring from carefully selected plants, then spread on bamboo trays and left to wither in direct sunlight.

Leaves are pan-fired in large woks to prevent oxidation before being hand-rolled and dried, all in under 24 hours. The resulting tea has a clean floral flavour with a long-lasting sweet finish.

JASMINE

Delicious organic jasmine tea comes from the Kao Shui Tea Garden, one of the oldest organic and Fairtrade tea projects in China, the Da Zhang Shan. The farmer, Mr He, started with just 1/2 hectare of tea and now has one of the project's biggest farms.

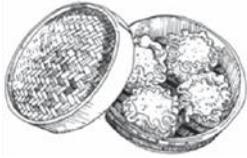

To create the distinctive jasmine scent found in this tea, green tea is layered with jasmine flower buds, then left for 12 hours overnight. During this time, the buds open, releasing their floral scent into the tea. The next morning the buds are removed. This process is repeated numerous times, creating the distinct floral notes of jasmine and just a touch of green tea astringency.

CITRUS ROOIBOS

In South Africa, Rooibos is known as Red Bush. It's naturally caffeine-free and is used in herbal medicine for its healing properties. The Rooibos included in our organic herbal infusion tea, Citrus Rooibos, grows at 650m above sea level on the Bergendal Estate; it is one of the few plants to thrive in the stony barren land of the Western Cape in South Africa.

Leaves are picked and cut before undergoing a natural fermentation. Finally, they are spread out and dried in the African sun to give the tea it's famous ruby-red colour. We blended these organic Rooibos with lemongrass, marigold bloom petals and citrus oils to create a rich, sweet-tasting, citrus rooibos delicious for any time of day or night.
